Free Antique Laffargue & Co. Cabinet Grand Piano circa early 20th century. Piano is in good condition with good, refurbished action. It has been kept in a climate and humidity-controlled environment. Some minor chipping of keys, but all ivory is intact. Used by my daughter who taught piano lessons on it, but has not been played for several years, so will need to be tuned. Of course it is very heavy, so proper moving equipment and manpower will be needed to move it. Located on first floor, close to the door which is next to our driveway, so with the right equipment it will be relatively easy to move.
