I have a Packard Upright Grand Piano that needs a new home. Based on the serial number it was manufactured between 1900 and 1905. This is a fabulous piano in original condition. There has been no restoration work done on this piano. As far as I know I am only the 2nd or 3rd owner of this piano and purchased it 10 years ago. Original ivory keys, with damage but could be restored. There is one broken string and one missing black key (may still have it). Serious inquiries only, please see pictures.

Must pick up. From a smoke and pet free home.
