1969 Kimball Studio played in the same church continuously since new (approx. 1969 to 1970) until March 2018, and kept tuned. However, Mr. Freeman says that it needs refurbishing after the pianist reported that B-4 & B-5 were a little off. So, this piano should help a beginner, but advanced players should have a tech check it out for an estimate. The piano is located in our church in the Turbeville Community of Halifax Co. VA 24592, just north of the NC line, about an hour and a half north of Durham, NC & an hour and a half south of Lynchburg, VA.
