1978 Kimball Artist Console in good condition, with original bench. One owner - has been well loved, now looking for a new family. Needs tuning and a very minor adjustment on the sustain rod lift lever/main action rail - can easily be done by any tuner/piano technician. Otherwise in great shape - just needs a little cleaning, inside and out. All keys intact, responsive action, and a nice warm, resonant sound. Easy to move - first floor location - must pick up by March 30, 2019.
