

1920's Milton Player Piano

North Brookfield, Massachusetts 01535
United States

I've had this piano for 10 years. The player is still functional! Many of my piano students have enjoyed using and learning about this old piano. Alas it's taking up too much of my music room and I'd like to give it to someone who will use it. It will come with several rolls and a box of music.

The catch? Only that you have a piano mover move it to your location. It's close to 1000 pounds.
