

1940s Winter Company NYC Baby Grand

East Hartford, Connecticut
United States

Winter Company, New York, baby grand 1940s vintage piano. One family ownership bought new 1940s. Over all dimensions 53in x 55in standing 38in high. Restrung 2000, sound board compromised, case in fair condition, original bench included. More pictures available on request.

Refurbishment was quoted at \$8,500. Considering a total professional rejuvenation for under ten thousand makes this baby grand a redeemable investment.

(We researched Sweeney Piano and found them professional creating handsome results. Consider, Sweeney can pick up, refurbish and deliver to you a like new baby grand.)

One inquiry asked on the condition of the sound board. Our technician from twenty years ago felt it was worth his attempt to bond the board's crack but as no one played, it was left for some future plan.

Piano Adoption has generously provided this opportunity to offer a new beginning for the 'Winter' and it would certainly please us to not have to see her end at the breakers. Thanks again for the interest in our 'Winter'!
