

# Upright Howard piano

---

Overland Park, Kansas 66212  
United States

This lovely piano has been in my family for 40 years. We are only its second owner, and we are looking for its third. I believe it was built in 1916. Howard upright (56" tall) in very good condition: minimal scratches on sides of case. Only one key has a visual blemish that does not impact its function. Soundboard was in good condition at last tuning (a few years ago). Bench included. Must be re-homed by September 2019.
