

Free Upright Piano

West Des moines, Iowa 50265
United States

Exterior is beautiful. Needs tuning. All keys work. One of the ivory keys is missing but may be in the piano as I had little kids that got after it and I know I wouldn't have thrown it away. (What looks like other keys are messed up, it's just masking tape yelling my kids what notes to play in order. Comes off easily.)

This would be great for someone wanted to ponder piano playing, nursing home, no. Profit, especially geared towards children, artist who wanted to paint it and do something for the community with it, church, etc.
